

Elephantech

As of February 9, 2019, we have achieved the international standards certifications ISO9001 and ISO14001

February 18, 2019

Elephantech Inc. (head office: Chuo-ku, Tokyo, CEO: Shinya Shimizu, hereinafter “Elephantech”) manufactures “P-Flex®”, a flexible PCB, and advocates new circuit board manufacturing methods using printed electronics technology.

As of February 9, 2019, we have achieved the international standards certifications ISO9001 (quality management system) and ISO14001 (environmental management system).

With a mission to "Create new manufacturing technologies, make them global standards, and advance the world" in the development and manufacturing of printed electronics, Elephantech has been working to provide high quality and environmentally friendly manufacturing technologies.

Moving forward, we will strive to further improve the customers' trust and satisfaction in our quality management, reduce our environmental impact and find a better balance through our environmental management, and earn society's trust in our corporate activities.
